28223 Pumpout Trailer
Shown with Single Diaphragm Pump

General Description

The 28223 pump out trailer is an ideal way to provide pump out service throughout the marina without installing plumbing. Boat yards frequently need to pump out a boat either when in dry dock or when pulling the boat for the season. The portable design can be integrated into a plumbing infrastructure to provide a fixed station though out the marina and become portable as needed.

This versatile trailer is designed to accept our diaphragm pump options, or the powerful peristaltic options shown below.

Pump Options for Trailer

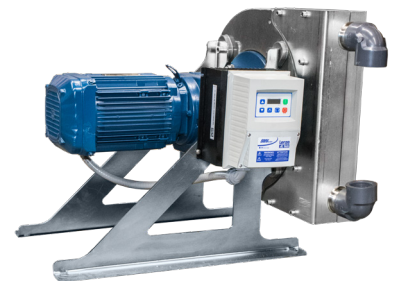

#25261 DOUBLE DIAPHRAGM

- 3/4HP 120V 1PH
- 25' Suction Lift
