Manual Pumps

#55412

KEY FEATURES

- Two different sizes (1 Gallon Per Stroke and .43 Gallon Per Stroke)
- Highest Capacity Manual Pumps on the Market
- Built Tough for Years of Service
- Designed Simple for On-board Maintenance
- Self-Priming
- Large Flow-through Inlet and Discharge Passages for Virtual Clog-Proof Operation
- Reinforced Diaphragms and Valves for Long Life (over 3,000,000 cycles)
- Bronze or Anodized marine-grade Aluminum
- 1-1/2" or 2" NPT Ports

EDSON[®] Portable Pump Kits

1 Gal. Per Stroke

Edson's Portable Pump Kits are complete pumping systems that include either the 18 GPM #217 Pump or the 30 GPM #117AL Pump mounted on a carrying board with a 32" handle. Quick clamp hose fittings and a single 20' length of hose supplied for optimum configuration by the individual.

They can be customized with additional hose, a strainer, and special couplings to meet specific needs. An optional Pump Kit Storage Bag is available for storing the pump.

- 30 GPM Portable Pump Kit - #165AL-30-200
- 18 GPM Portable Pump Kit - #165AL-18-150
- Portable Pump Kit Bag - #275-31
